MEADOW LAWN STUD

CLYDESDALE STALLIONS AND MARES.

The Meadow Lawn Stud of Clydesdale Stallions and Mares in breeding and quality is not surpassed by any draft horse breeding establishment in Europe or America.

The premium record of this stud, published elsewhere in this catalogue, conclusively proves that representatives of this establishment at the leading exhibitions of Great Britain and America, have been remarkably successful as prize-winners. No American stud of Clydesdale Horses has contended with a better class of Clydesdale Horses or made a more brilliant prize record than that credited to the Meadow Lawn Stud, and published elsewhere in this catalogue. The spirited contests made at the American Horse Show and the leading State Fairs by the Meadow Lawn Stud, and the victories won, may not be familiar to some of the readers of this catalogue, hence the reference and publication of the prize record.

The foundation stock of the Meadow Lawn Stud creditably represent the most successful prize-winning strains at the leading show yards of Scotland, and many of the successful competitors abroad have been imported for this establishment.

The extended experience of the farmers and horse breeders residing in all portions of the world, attests the well established fact that no draft stallion nicks so well or gives such excellent results when used upon native or full-blood mares as the Clydesdale stallion.

Colts sired by Clydesdale stallions and out of native or full-blood mares mature early and are ready for work at three years of age, and their quality, endurance, style and finish ensure the highest market rates.

Farmers desiring well bred Stallions with sufficient quality for successful competition in the prominent show rings of the country can be supplied at reasonable prices and liberal terms at the Meadow Lawn Stud.

The ambition of the proprietor of the Meadow Lawn Stud of Clydesdale Horses, to purchase and breed a stud not surpassed on either continent for quality and choice lineage, has been gratified, and no pains or expense will be spared in the future to retain a foremost position among the largest and best Clydesdale breeding establishments of Europe and America.

THE CLYDESDALE.

THE CLYDESDALE HORSE possesses by far more desirable qualities than any other draft horse. This fact is attested by the judgment and investment of a large portion of the civilized world, and there is not any progressive nation that is not engaged largely in importing and breeding this superior type of a draft horse.

"The large demand for Clydesdale Horses is increasing of late years at an unprecedented rate, and this is especially the case where the breed has been tested for years, and the superior merits of the breed is known. The prominent and most successful breeders in the German States, France, Austria, Holland, Belgium, Russia, England, Canada, United States, South America, Australia, New Zealand, as well as many other countries, highly appreciate this grand and powerful horse, which partakes of the sturdy nature of his Scotch antecedents. In the leading Agricultural Exhibitions of the countries named above, the Clydesdale horse has almost uniformly been successful over all other draft breeds.

"This catalogue may fall into the hands of some parties not familiar with the Clydesdale breed of horses, and to such the following description of the Clydesdale breed of horses and their characteristics, as conceded by the best authorities in such matters, may be of value.

"In color, bays and browns predominate, with usually some white in the face or on the feet. In height, ranging from 15.3 to 17.1, with an occasional one at nearly 18 hands; and in weight, from 1,500 to 2,100 pounds, with an occasional horse upwards of 2,400 pounds.

"He is heavier boned than any other breed, according to his weight, particularly in his limbs, which are of great width, flat, cordy and very hard. It is said that at the bone mills the bones of the Clyde can readily be distinguished from those of the ordinary horse by their elasticity, toughness and solidity. Ring-bones, bone spavins, splints and such diseases of the bony structure are, with him in his native country, unknown. The pasterns are sufficiently angular, long and elastic to obviate injuries, concussions—even when employed on the hard pavements of cities. The hoofs are good size, deep, well shaped, fine grained, firm and tough. He has a prominent eye, fine head, well shaped neck, which is set upon magnificent shoulders. His barrel is round and straight, with none of the paunchy appearance; body generally long and the quarters immense. The whole muscular structure is of prodigious development, and with none of the stall-fed and flabby appearance so common in some families of the draft horse. His mane and tail heavy and usually inclined to curl.

"The back of the legs, from the knee and hocks to the fetlock, is covered with quite long hair—a characteristic highly prized by the Scotchman, and evidence of the purity of the blood.

"He is kind and gentle in disposition, but spirited and with great nerve, vim and courage. He is a rapid walker, with or without a load, and an excellent traveler for a heavy horse; of wonderful power and endurance, and by far the easiest horse kept, according to size."

NOTED ANCESTORS

OF THE

MEADOW LAWN STUD.

The pedigrees of the animals published in this catalogue conclusively demonstrate that in the excellence of pedigree, the Stallions and Mares are not surpassed by any Clydesdale breeding establishment in Europe or America. The following well known Clydesdale sires are so frequently mentioned in the pedigrees of the Meadow Lawn Stud, that it has been deemed advisable to publish their prize and breeding records for the information of all interested in the breed.

Parties engaged in the study of the strains of Clydesdale blood that have conduced so largely to the great excellence of the breed, will find information of great value and interest in the following data concerning some of the noted ancestors of the Meadow Lawn Stud:

BEACONSFIELD (1942) is the sire of many prize-winning and successful breeding mares. He is the sire of Maggie Scott (4815), winner of numerous prizes, including first and champion cup at Bute show in 1885, and fourth at Glasgow the same year. Maggie Scott is dam of the first prize two-year-old colt at the H. & A. S. show at Melrose in 1889.

BELTED KNIGHT (1395) 5352 is a beautiful bay horse of well-balanced merit. He was bred by the heirs of the late Wm. McDowall, Auchtralure, Strauraer, and was foaled in 1878. He and his dam and sisters gained numerous prizes in Wigtownshire, and at the Dumfries Union Shows. Amongst those gained by him may be named: In 1880, second at the Glasgow Summer Show, third at Ayr, second at the Royal at Carlisle and third at the H. & A. S. at Kelso.

In 1881 he was third at the Glasgow Summer Show, and second at the H. & A. S. Show Stirling, beating the celebrated Lord Douglas, which was sold at Merryton when a yearling for 380 guineas, and was the Glasgow prize horse in 1881. Belted Knight was fourth at the H. & A. S. Show at Glasgow, in 1882, and the Dumbartonshire Premium Horse in 1882, 1884 and 1885. He was the Kirkcudbright Premium Horse in 1883.

The horses with which Belted Knight competed in the show ring, viz., Macgregor 4999, Lord Douglas and Corsewall, are sufficient guarantee of his individual merit; but his claim to popular favor does not rest on his success as a show horse, great as that success was, but on the wonderful merit of his progeny, both as prize-winners and as breeding horses. The improvement effected in the Clydesdale stock of Dumbartonshire byBelted Knight can only be appreciated by those who have

attended the Show there during the past ten years. Few counties can now show so many first-class brood mares; and the show held on Saturday, May 19, 1888, the first prize brood mare, yeld mare, three-year-old filly, and second prize two-year-old filly, as well as several very fine specimens, occupying lower places in the prize lists, were all got by Belted Knight. On the same day another filly got by him gained first prize at Barrhead Open Show, and a week later she was again first at Paisley in the two-year-old class. This same filly was subsequently first at Bishopton, second at Maryhill and fifth at the H. & A. S. Show. Some time since, Mr. Walter Park Hatton, who owned her, sold her to Mr. Andrew Montgomery at a high price, and at Kilmarnock Show on April 19, she was third in a first-rate class of three-year-old mares.

In 1882, when Belted Knight traveled in Dumbartonshire for the first time, he was the sire of the following famous animals, viz.: Edith Plantagenet, Ethel, Sheila, Lord Beresford (4178) and Sir Hildebrand (4024); five animals which could hold their own against the five best got in one season by any other sire that could be named. Edith Plantagenet was sold at the Auchdennan sale in 1884 for 300 guineas, and was unbeaten when a yearling, and also practically when a two-year-old. She has never left the show-ring without a ticket. Sheila was the Stranraer cup mare last year, Ethel has been frequently first and cup winner at Dumbarton and Maryhill.

At Paisley Show, on May 26, 1888, the first and second prize yearling fillies were got by Sir Hildebrand, and third, fourth and sixth by Lord Beresford; while the fifth prize filly was the yearling owned by Mr. Riddell, that got third prize in a very large class at Ayr, in the end of April—thus showing that Sir Hildebrand and Lord Beresford are first-rate breeding horses. Amongst the stock defeated by these fillies at Paisley were animals got by Prince of Wales (673) 487 and Lord Erskine (1744), 3338, while among the fillies placed behind the Belted Knight filly from Hatton, which got first in the two-year-old class, were fillies got by the Prince of Wales (673) 487 and St. Lawrence (3220) 5476.

BERGAMIE (44) gained first prize at the H. & A. S. Show at Kelso, in 1863, when a yearling. His sire, Johnnie Cope (417), gained the Gatehouse district premium in 1859, and afterwards went to Kintyre, where Bergamie was foaled.

BLACK PRINCE (52) gained third prize at the Highland and Agricultural Society's Show at Edinburgh in 1869, first at Dumfries in 1870 and first at Perth in 1871.

BONNIE SCOTLAND (1076) won second prize at the H. & A. S. Show at Dumfries in 1878; he was afterwards sold for £900 to go to New Zealand.

BOYDSTON BOY (111) 1872 won first prize at Ardrossan in 1875, first at Renfrew and third at Aberdeen in 1876, third at the Glasgow May Show, second at the Glasgow Autumn Show and was commended at the H. & A. S. Show at Dumfries in 1877, first at the Royal Northern Society's Show and very highly commended at the H. & A. S. Show at Perth in 1879.

BROOMFIELD CHAMPION (95) 5357 was one of the most noted sires of his day, and many of the best known sires at the present day trace back to him. He gained first prize at the H. & A. S. Show at Aberdeen, in 1834.

CAMPSIE (119) 5357 won the following prizes and premiums: First prize and gold medal at the Highland Society's Show at Kelso in 1863; the Fife and Kinross premium two years in succession; the Shott and

Whitburn premium four years in succession, and the Ayr County premium in 1868.

CETEWAYO (1409) was first at Kilmarnock when a yearling. He gained the Clackmannanshire premium when a three-year-old and was exported to Canada.

CHAMPION OF THE NORTH (1092) 1857 gained many prizes, including second at the H. & A. S. Show in 1879; first at the Glasgow Stallion Shows and the Glasgow premium, and second at the H. & A. S. Show at Kelso in 1880.

CHARMER (2014) 5362 gained the Northumberland premium in 1882, and the Castle-Douglas premium in 1883 and 1884; also third prize at the Highland and Agricultural Society's Show at Stirling in 1881. His dam, Meg of Sypland (444), was got by Gladstone (333) 5397, winner of second prize at the H. & A. S. Show at Kelso in 1872; and his granddam, Damsel (442), was got by the famous breeding horse, Lochfergus Champion (449).

CHASTLAR (4291) 3945 is a handsome bay horse, bred by the Lords Arthur and Lionel Cecil, Orchardmains, Innerliethen. He gained second prize at Kirkcudbright in August, 1886, the only occasion on which he was exhibited. He has excellent quality of bone and hair, and shows the superiority of his breeding. He was awarded the premium of the Bute Farmer's Society, and traveled in the Island in 1887. Chastlar is very closely related to the world-famed stallion, Macgregor (1487) 4999. Both were got by the noted Clydesdale stallion, Darnley, the most seccessful breeding and prize-winning stallion ever known in Scotland, and Dawtie, the dam of Chastlar, was out of the same mare as Flashwood Sally (60), the dam of Macgregor. Chastlar, shown by N. P. Clarke, was a sweepstakes prize winner in 1888 and 1889, at the Minnesota State Fair.

At the American Horse Show, held in Chicago, in 1889, Chastlar was awarded second premium in his class, and at the same show he was awarded second prize in the ring for stallion and three of his get.

CLANSMAN (150) 5364 was a horse of great reputation and won numerous district premiums. He was the sire of the following noted horses, viz: Defiance (226), winner of the third prize at the H. & A. S. Show at Stirling in 1873, first at Glasgow, and second at the H. & A. S. Show at Inverness in 1874; Pride of Scotland (602), winner of first prize at Dalbeattie when a yearling; first at Glasgow, and the H. & A. S. Show at Inverness in 1874, when two years old, being afterwards sold at a very high price for exportation to New Zealand; and Young Clansman (941), winner of third prize at the H. & A. S. Show at Glasgow in 1875, and fourth at the same society's show in Aberdeen in 1876. He was also sire of Tarbroech Jean (75), winner of second prize at Glasgow, and first at the R. A. S. E. at Hull in 1873, and second at the H. & A. S. Show at Dumfries in 1878; and the dam of Scottish Rose, which in 1887 was sold for 205 guineas, when a foal, at a public sale in Wigtownshire. In 1888, Scottish Rose was first at Ayr, and at the Royal Agricultural Society's at Nottingham, and third at the H. & A. S. Show at Glasgow, and in 1889 she was first at Ayr, and the H. & A. S. Show at Melrose.

CLAYMORE (3522) was first at Dalkeith and West Lothian; second at Biggar, and very highly commended at the H. & A. S. Centenary Show at Edinburgh as a yearling. As a two-year-old he was first at the Royal Show at Preston; first at West Lothian and Biggar and second at Glasgow and Edinburgh.

CLYDE (153) was a first-rate breeding horse. He was also sire of Clyde (155), winner of first prize at the H. & A. S. Show at Glasgow, in 1844, and Farmer's Fancy (298), winner of first prize in the three-year-old class at the same show, and second at Dumfries in the following year.

CLYDE (155) 5366 won first prize at the Highland and Agricultural Society's Show at Glasgow in 1844.

CLYDE (156) won first prize at the Highland Society's Show at Glasgow in 1850.

CLYDESDALE GEORDIE (169) 5367 gained premiums in Forfar, Strathendrick and Lanarkshire.

CONQUEROR (196) 5369 won the Glasgow premium in 1870 and 1871, the Marchars of Wigtown premium in 1872, and the Lesmahagow premium in 1873. He also won first prize at Maryhill and Glasgow when a yearling. He is sire of Gleniffer (361), which when a yearling gained first at Neilston, Barrhead and Johnstone; when two years old he was again first at Neilston and Barrhead. In 1875, when three years old, he gained the Northern District of Fife premium, first prize at Ayr, and third at H. & A. S. Show at Glasgow. In 1876 he was in the short leet at the Glasgow Stallion Show, and was second at the H. & A. S. Show at Aberdeen. Another noted sire got by Conqueror was the well known Paisley Jock (581), as good a horse as ever wore a bridle. He was foaled in 1871, and gained fifth prize at the H. & A. S. Show at Aberdeen in 1876, and third prize at the H. & A. S. Show at Edinburgh in 1877. Mares got by Paisley Jock have proved second to none as brood mares. The dam of Mr. Riddell's prize mare, Buchley, was a daughter of Paisley Jock. The dam of Mr. Montgomery's horse, The Mackintosh (2273), which beat the great Prince of Avondale at Edinburgh when two years old, was also got by Paisley Jock, and the same owner's Goldenberry (2828) is out of a mare got by Paisley Jock.

CORSEWALL (1420) 5371 gained first prize at the H. & A. S. Show at Stirling in 1881; second prize at the H. & A. S. Show at Glasgow in 1882; first prize at the H. & A. S. Show at Inverness in 1883; and second prize at the H. & A. S. Show at Edinburgh in 1884. He gained the Castle Douglas premium in 1881, the Clackmannan premium in 1882 and 1884, and the Upper Nithsdale premium in 1883.

CROWN PRINCE (206) 1856 gained the Glasgow premium and silver medal in 1873; fourth prize at the H. & A. S. Show at Inverness in 1874, and the premium for Falkirk, Easter Ross and others.

CROWN PRINCE (207) 1855 gained second prizes at the H. & A. S. Shows at Dumfries in 1870, and Perth in 1871, and first at Glasgow Agricultural Society's Show in the latter year. He is also sire of the famous Auchendennan mares, Damsel and Diana Vernon. Damsel gained first prizes at the H. & A. S. Shows in 1876, 1877, 1878 and 1879, when a yearling, two-year-old, three-year-old, and four-year-old; she was also first at Glasgow in 1877, 1878 and 1879. She was sold in August, 1879, by public auction, for £525, and was taken to New Zealand.

DANDY JIM (221) 5374 gained the Castle-Douglas premium in 1876, and the East Berwickshire premium in 1877. He was afterwards sold to an Entire Horse Association, but died in 1878. One of his gets, Jeanie Sproat (1445), gained several first prizes, including first at the H. & A. S. Show at Dumfries, in 1878. Another of his gets was the noted horse

Prince Imperial (1258) 1262, winner of first prize at the R. A. S. E. Show at Kilburn, in 1879, and first at the same society's show at Carlisle, in 1880. He was also sire of the dam of the first prize yearling colt at Edinburgh, in 1887. At the R. A. S. E. Show at Carlisle, in 1880, the first prize three-year-old stallion the third-prize three year-old filly and the first-prize yearling filly were all got by him.

DARNLEY (222) 26 was the *facile princeps* of Clydesdale sires. He was foaled at Keir in 1872, and gained second prize at the H. & A. S. Show in Stirling in 1873, and the glasgow premium at the Spring Stallion Shows in 1876 and 1877. He was first at the H. & A. S. Show at Edinburgh in 1877, winner of the champion cup as best stallion of any age, at the same society's show at Dumfries in 1878; second at the Royal International Show at London in 1879; first and winner of the champion cup as best stallion exhibited at the Royal Agricultural Society's Show, at Carlisle, in 1880; first at the H. & A. In selecting a horse for the stud, a breeder looks for, first, individuality and then for good breeding to sustain it. Both of these essential qualities are found in Gallant Duke 5264. Besides being a grand individual, he is exceptionally well bred, being sired by Gallant Lad (2781) 5976, a very noted son of Old Druid (1120), and out of Missie by Crown Prince (206) 1856, a noted son of Lochfergus Champion (449) 485.

MISSIE (8871), the dam of Gallant Duke (8636) 5264, was sired by Crown Prince (206), winner of the Glasgow premium and silver medal in 1873, fourth prize at the Highland and Agricultural Society's Show at Inverness in 1874, and the premium of Falkirk, Easter Ross and others.

GALLANT LAD (2781) 5976, sire of Gallant Duke (8636) 5264, was the Selkirk and Galashiels premium horse in 1883; Windygates premium horse in 1884; Glasgow premium horse in 1885. In July of the same year he gained first prize in the aged class at the H. & A. S. Show at Aberdeen and was drawn in the short leet of five at Glasgow Spring Show in 1886 from a large class. He gained the Shotts and Holytown premium the same year. In 1887 he was one of the short leet of seven at the Stallion Show and was engaged to travel Alyth district of Forfarshire.

MACPHATER 6188 is a very choice bred colt, and one that will do well in the stud. He is by the invincible Macgregor (1487) 4999, and out of Sally of Barlochan (6394), a daughter of Sir Conlin (777) 5470, who was highly commended at the Highland and Agricultural Society's Show at Aberdeen in 1876 and won first and silver medal at Glasgow in 1877. He traveled Castle Douglas district in 1877, and Durham in 1878.

LILLY, the grand dam of McPhater 6188, was sired by Prince (609), a son of Lochfergus Champion (449) 485, a particularly successful horse both in the show ring and in the stud. The fact that Darnley (222) and Macgregor (1487) are very closely related to Lochfergus Champion (449) 485 proves that he was an extraordinary sire, and there is scarcely a noted prize winning Clydesdale that has not some of Lochfergus Champion's blood in his veins.

MACGREGOR (1487) 4999, the sire of Macphater 6188, gained first prize at Dalry, second at Kilmarnock, and first at Dalbeattie when a yearling. MACROBERT (8019) 6189, is a typical specimen of the best class of Clydesdale stallions. He was sired by the noted Macgregor (1487) 4999, and out of Polly of Twinholm (7778), a steady, breeding mare of the best class. DARNLEY gained second paize at the H. and A. S. Show at Stirling, in 1873, when he was a yearling. BET 5792 is a mare of superior quality and good breeding, and an excellent brood mare. She was sired by Macauslan (4552) 3460, a son of Macgregor (1487) 4999, and her dam was Jean of Shield (6223) by Lochfergus Champion (449) 485, a very noted sire.

MACGREGOR (1487) 4999, the grand sire of Bet 5792, was a very noted sire and prize-winner. In 1884 he was awarded first prizes at Glasgow as sire of the best five yearlings and best five two-year-olds exhibited; and at the Centenary Show, same year, he was awarded first and second prizes as sire of the best five yearlings, and first prize as sire of the best five two-year-olds exhibited, In 1885 he was awarded first prize at Glasgow as sire of the best five two-year-olds. In 1886 he gained a similar trophy at Kilmarnock, and also first prize as sire of the best five yearling colts on the ground.

LOCHFERGUS CHAMPION (449), the sire of the dam of Bet 5792, was one of the best breeding horses known in Scotland. It is impossible to give full particulars of his success in the show ring and at the stud. There is scarcely a prize-winning animal which has not a dash of his blood in his veins. Macgregor is closely related to him, and there was scarcely a prize-winner at the Centenary Show of the H. & A. S. at Edinburgh which was not related to Lochfergus Champion. When one year old he gained first prize at the Union Show at Dumfries, and when two years old, at Dalbeattie, he got the medal for the best horse of any age in the yard. He was twice awarded the premium by the Wigtown Farmers' Society, and twice by the Kirkcudbright Farmers' Society, and is well known to be the best breeder of stock in Scotland.

CHRYSTABEL 6165 is a very superior mare. She was fifth at the Royal Show at Doncaster, in 1891 in a very strong class. She also gained several prizes at other shows.

CLAMORE (3522), the sire of Chrystabel 6165, was first at Dalkeith and West Linton, second at Higgar and very highly commended at the Highland and Agricultural Society's Centenary Show at Edinburgh as a yearling. As a two-year-old he was first at the Royal Show at Preston, first at West Linton and Biggar, and second at Glasgow and Edinburgh.

THE ABBOTT (1320) 659, the sire of the dam of Chrystabel 6165, won first prize at the Royal Show at Kilburn, 1879.

MACGREGOR (1487) is so well known, that comment regarding him is almost unnecessary. He gained first prize at Dalry, second at Kilmarnock, and first at Dalbeattie when a yearling. When two years old he was first at Ayr, Glasgow, the Highland and Agricultural Society at Kelso, and the Royal Agricultural Society at Carlisle. When three years old he was first at Glasgow and the Royal Agricultural Society at Derby. When four years old he was first at the Highland and Agricultural Society at Glasgow, in 1882. CLATTO BARNS ROSEBUD 6166 is a first-class mare, winner of first prize at Dalbeattie when a yearling.

MONTRAVE MASTER (6096), the sire of Clatto Barns Rosebud 6166, was out of one of the best Clydesdale mares known in Scotland, Rosie of Hallside (2583), winner of the first prize at the Highland and Agricultural Society's Shows in 1882, 1883 and 1884, as well as very many first prizes at all the leading shows in Scotland.

MASTER OF BLANTYRE (2283) gained the Selkirk and Galashiels district premium in 1885, the Lanark Clydesdale Society's premium in 1886 and 1888, and the Dalbeattie district premium in 1887, and was West Lothian district premium horse in 1889. Master of Blantyre is full brother to Mr. Waddell's noted prize mare, Louisa, winner of prizes and champion cups, too numerous to mention, and Laird Darnley, owned by Mr. T. Lindsey, Townsend, Craigie; half-brother on the sire's side to Macgregor (1487) 4999, Sanquhar (293) and Blue Ribbon (1961). Stock of Master of Blantyre have gained upwards of a dozen premiums at Forest-field, Old Monkland, Edinburgh, Lanark, Forth, Neilston, Stewarton, Galashiels and Renfrewshire. In 1889, Lady Blantyre, got by him, was sold for $1,500, and a colt, Queensberry, winner of champion honors at Linlithgow as a two-year-old, was sold for over $2,000.

S. Glasgow, and second at Kirkcudbright when a two-year-old. Maclennan is a splendid horse individually and no Clydesdale has better blood in his veins.

MACGREGOR (1487) is so well known that comment regarding him is almost unnecessary. He gained first prize at Dalry, second at Kilmarnock, and first at Dalbeattie, when a yearling. When two years old he was first at Ayr, Glasgow, the Highland and Agricultural Society at Kelso, and the Royal Agricultural Society at Carlisle. CROSBY ROSE 6167, although only two years old, is well known in all of the Scotch show-yards as one of the best of Clydesdale mares, both in breeding and in quality. She was first at all the principal shows in Cumberland when a foal. As a yearling she was second at Kilmarnock and first at Edinburgh, Kirkcudbright and Dalbeattie. In 1891 she was first at the Royal Show at Doncaster and was also reserve champion in the female classes.

SIRDAR (4714) 5994 is well known both as a successful prize winner and as a successful sire. He stood second for the Glasgow prize as a three-year-old in 1887, and was first at Ayr, Glasgow Summer Show and the Royal at Newcastle the same year. In 1888 he won first prize at the Highland and Agricultural Society's Show at Glasgow. In 1889 he was Bute premium horse for the Rhins of Galloway district, and was sold at the end of the season for $7,000. Yearling fillies got by him were first at Kirkcudbright, and first, second and fifth at Dalbeattie in 1889. JEWEL OF PARKHEAD (8136), the dam of Crosbie Rose 6167, was a noted prize winner. She gained in 1885, first at Carlisle, Wigtown, Abbey-Holm, Maryport, Whitehaven; in 1886 first at Lockerbie, Wigtown, Abbey-Holm, Workington, Cockermouth, and fourth at Royal, Norwich; in 1887 first at Whitehaven, Carlisle and Wigtown, and in 1889 three firsts at Penrith.

DOLLAR'S QUEEN 3646, reflects much credit on her sire, Dollar King 3149, whose colts are remarkable for quality and style. Dollar's Queen 3646 bears a strong resemblance to the mares nearly related to Prince of Wales (673), to whom she traces on the side of both sire and dam.

FAIRY QUEEN 2695, the dam of Dollar's Queen 3646, was sired by Corsewell (1420), a grandson of Prince of Wales (673).

PRINCE OF WALES (673), of world wide fame, gained first prize at the H. & A. S. Show at Edinburgh in 1869, second at the H. & A. S. Show at Dumfries in 1870, first at the H. & A. S. Show at Kelso 1872, and first at the Royal Manchester in 1869. Stock got by him have gained prizes at the H. & A. S. Shows for the last nineteen years, and he himself sold for £945 pounds when he was eighteen years old. It is impossible to give a full detailed list of the prize winning animals got by him, but a few of the most prominent prize winners at the present day may be given, viz: Prince of Albion (6178) the unbeaten two-year-old colt of 1888, which was sold at the end of that season for £3,000, being the highest price ever paid for a draft horse of any age or breed; in the year 1889 he was again shown and maintained his unbroken record, gaining first prizes and championships at Glasgow, the R. A. S. E. Show at Windsor, and the H. & A. S. Show at Melrose. The Prince of Kyle (7155), own brother to Prince of Albion, was sold when rising two years old for £1,600, and in 1889 he has never been beaten as a two-year-old. Orlando, a yearling colt, gained many prizes, including first at the H. & A. S. Show at Melrose. He is also sire of Scottish Snowdrop, the unbeaten yearling filley of 1889, being first at Glasgow, the R. A. S. E. Show at Windsor, the H. & A. S. Show at Melrose, and at Kilmarnock, Ayr and Greenock.

DORA MACGREGOR is as perfect a specimen of a Clydesdale brood mare as can be found. In 1887, as a yearling, Dora Macgregor 3951 was awarded second prize at the Royal Agricultural Society's Show, New Castle, England. In 1888 she was first at the American Horse Show at Chicago, and first at the Minnesota State Fair, and first premium at the Fifth Annual Exhibition of the American Clydesdale Association. Dora Macgregor 3951, having received, in 1890 in the ring for aged mares, the highest honors provided by the American Clydesdale Association, was retired from further competition, and graduated from the show ring with gold medal of this Association, as the champion prize mare for 1890.

MACGREGOR (1487), gained first prize at Dalry, second at Kilmarnock, and first at Dalbeattie when a yearling. In 1876 he was in the short leet at Glasgow Stallion Show, and was second at the H. & A. S. Show at Aberdeen.

This is a big, useful, well bred mare, sired by Macgregor (1487) 4999, and out of a mare by the noted Lochfergus Champion (449) 485.

MACGREGOR (1487) gained first prize at Dalry, second at Kilmarnock, and first at Dalbeattie, when a yearling. When two years old he was first at Ayr, Glasgow, the Highland and Agricultural Society at Kelso, and the Royal Agricultural society at Carlisle. When four years old he was first at the Highland and Agricultural Society at Glasgow in 1882. When five years old he gained first prize at Glasgow as sire of the five best yearling colts or fillies exhibited. When six years old he gained first prizes at Glasgow as sire of the five best yearlings and the five best two-year-olds exhibited.

DANDY II. (173), the dam of Ellen Macgregor, is a splendid breeding mare. She also was the dam of Pure Blood (1273). Her sire was Lochfergus Champion (449); he by Salmond's Champion (737), by Farmer (284); he by Glancer (338); he by Young Champion (937); he by Broomfield Champion (95).

LOCHFERGUS CHAMPION (449) was one of the best breeding horses ever known in Scotland. It is impossible to give full particulars of his success in the show ring and at the stud. There is scarcely a prize winning animal which has not a dash of his blood in his veins. Macgregor is closely related to him, and there was scarcely a prize-winner at the Centenary Show of the H. & A. S. at Edinburgh, which was not related to Lochfergus Champion. When one year old he gained first prize at the Union Show at Dumfries, and when two years old, at Dalbeattie, he got the medal for the best horse of any age in the yard.

FLORENTINE 6170 is a grand good filly, and she will undoubtedly make a grand brood mare. She gained second prize at Kilmarnock in a very strong class in 1891. She is own sister to the Maclennan (6048). A glance at her pedigree shows the breeder posted in Clydesdale pedigrees that she is no commonly bred mare. Her sire, Macgregor (1487) 4999, is too well and favorably known to need comment, and her dam, Bet III. of Balig (4092), was sired by Champion of the North (1092), and out of Jean of Balig (886), whose first, second, third, fourth and fifth dams were by grand good sires.

MACGREGOR (1487) 4999 was awarded first prize at Glasgow as sire of the five best two-year-olds. In 1886 he gained a similar trophy at Kilmarnock, and also first prize as sire of the best five yearlings on the ground. These victories he repeated in 1887, in which year he was hired by the Kirkcudbright Farmers, on terms similar to those paid for his sire, Darnley.

CHAMPION OF THE NORTH (1092) 1857, gained second prize at the Highland and Agricultural Society's Show at Perth in 1879, in which year he traveled in the Rerwick district of Kirkcudbright. In 1880 he won the Glasgow district premium and was first at the Spring Show.

LADY STOCKWELL 5796, is a first-class brood mare, and her breeding will commend her.

MISSIE 5800, is a first-class brood mare, with breeding and form to suit the most critical. She traces on her sire's side to Good Hope (1679) 5399, a well known son of Darnley (222) 26, and on her dam's side to the noted Prince of Wales (673) 487.

GOOD HOPE (1679) was a noted premium horse and left first-class stock. He was awarded the Kircudbright premium in 1881, the Brechin District premium in 1882. and the Lower District of Wigtownshire or Newton-Stewart premium in 1883. He was exported to Australia in January, 1884. All the progeny of Good Hope are well-colored horses, with good feet and pasterns. A filly got by him in Wigtownshire gained first prize at Stranraer and Wigtown in 1886. Another of his progeny in that same season was the splendid horse, Bounding Willow, winner of second prize at Ayr, and the Upper Nithsdale premium in 1887, and who stood second for the Glasgow prize, and was awarded the Dalbeattie premium at the great Spring Stallion Show in 1888. At the close of that season he was imported to Canada, and at the Spring Stallion Show, held at Toronto, in March last, he was awarded the second prize, his stable companion, St. Gatien (3988), being first.

PRINCE DAVID (643) 5452, like Samson (741) 5465, has distinguished himself as sire of superior breeding mares. One in particular, is Cashley Bet (3506), the dam of Prince Lawrence, one of the most noted breeding stallions in Scotland at the present day.

QUEENIE 6191 is a number one mare in every respect, and reflects much credit upon her well known breeder. She gained first prize at Dalbeattie in 1889, and second at Kirkcudbright in 1890. She is exceptionally well bred, being by Sirdar (4714) 5994, a noted son of Darnley (222) 26, and out of the prize mare Blackey (825).

SIRDAR (4714) 5994 is well known both as a prize winner, and as a successful sire. He stood second for the Glasgow prize as a three-year-old in 1887, and was first at Ayr and Glasgow Summer Show, and the Royal at Newcastle the same year. In 1888 he won second prize at the H. & A. S. at Glasgow. In 1889 he was the Bute premium horse and in 1890 he was the premium horse for the Rhins of Galloway district, and was sold at the end of the season for $7,000.

BLACKEY (825), the dam of Queenie 6191, has been a successful breeding mare. Her first foal in 1880 died, and she had thereafter six foals—three colts and three fillies—in succession by Macgregor (1487) 4999, viz: the well known Machlan (3825), owned by N. P. Clarke; Macfarlane (2988), and MacRae (4569). Of the three fillies, the first was exported to New South Wales when a two-year-old; the second was the Balmedie mare, "Sunbeam," winner of prizes at Edinburgh, the H. & A. S., the Royal Northern Society Show at Aberdeen; the third was the filly, Jean Armour, owned by N. P. Clarke, St. Cloud, Minn., winner besides other prizes, of first prize as a two-year-old at Kirkcudbright in 1888.
